IMPORTANT NOTE

- The participants MUST bear all banking charges.
- **Participants need to fill the Registration Form after completing the process.**
- Registration fee does not include accommodation and travel expenses.
- All the accepted research papers will be published in the conference proceedings.
- All the accepted papers will be consider in Scopus Journals. (Charges Applicable)
- Registered members are asked to intimate about the registration immediately.

PUBLICATION

·All the accepted research articles will be Published in Lecture Notes in Networks and Systems

Lecture Notes in Networks and Systems
Springer

Lecture Notes in Networks and Systems

Series Ed.: **Kacprzyk**, Janusz

ISSN: 2367-3370

ABOUT THIS SERIES : TITLES IN THIS SERIES : ABOUT THE EDITOR(S)

The series "Lecture Notes in Networks and Systems" publishes the latest developments in Networks and Systems—quickly, informally and with high quality. Original research reported in proceedings and post-proceedings represents the core of LNNS.

Volumes published in LNNS embrace all aspects and subfields of, as well as new challenges in, Networks and Systems.

The series contains proceedings and edited volumes in systems and networks, spanning the areas of Cyber-Physical Systems, Autonomous Systems, Sensor Networks, Control Systems, Energy Systems, Automotive Systems, Biological Systems, Vehicular Networking and Connected Vehicles, Aerospace Systems, Automation, Manufacturing, Smart Grids, Nonlinear Systems, Power Systems, Robotics, Social Systems, Economic Systems and other. Of particular value to both the contributors and the readership are the short publication timeframe and the world-wide distribution and exposure which enable both a wide and rapid dissemination of research output.

The series covers the theory, applications, and perspectives on the state of the art and future developments relevant to systems and networks, decision making, control, complex processes and related areas, as embedded in the fields of interdisciplinary and applied sciences, engineering, computer science, physics, economics, social, and life sciences, as well as the paradigms and methodologies behind them.

** Indexing: The books of this series are submitted to ISI Proceedings, SCOPUS, Google Scholar and Springerlink **
